The inner surface of the towel, that is expected to the outer surface sponge made of fabric.

Sizes	Adjusted Measure

FW-12-K

VELPAU BANDAGE

Made of sponge cloth. Adduction of the shoulder and upper arm allows immobilization. The bandage around the chest, increase the stability.

Indications;
- Dislocation of the shoulder
- After surgery
- Upper of the scapula and humerus fractures
- Rotator cuff lesions are used in.

Sizes	Adjusted Measure

DEGREE ARM SLING(30°)

FW-14

The inner surface of the towel, the outer surface of the sponge cloth produced. Provides 30 ° abducation immobilizason shoulder. Prevent post-operative adhesions. Mobilization and rehabilitation help.

Indications;
- The impingement syndrome of post-op
- Rotator cuff tear after repair,
- Frozen shoulder under anesthesia after manipulation.
- Subacromial bursitis and subkorakoid.
- Used after shoulder endoprosthesis.

Sizes | **Adjusted Measure**

DEGREE ARM SLING(45°-60°)

FW-14-D

The inner surface of the towel, the outer surface of the sponge cloth produced. Provides 45° and 60° abducation immobilizason shoulder. Prevent post-operative adhesions. Mobilization and rehabilitation help.

Indications;
- The impingement syndrome of post-op
- Rotator cuff tear after repair,
- Frozen shoulder under anesthesia after manipulation.
- Subacromial bursitis and subkorakoid.
- Used after shoulder endoprosthesis.

Sizes | **Adjusted Measure**

CLAVICULA BANDAGE

FW-15

The inner surface of the towel fabric is made of sponge. With the velcro stepless adjustment, it provides the shoulders pulled back to the desired tension and ensures proper posture. Its soft and it does not sweat the content of the material provides comfort in use.

Indications;
- Clavicula fracture,
- Clavicula and sterno-clavicular is used in dislocations.

Sizes

- Heat and is used for compression

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

PATELLA KNEE SUPPORT

Is made of neoprene material and the anatomically designed.
Patella is open around the pad is supported.

Indications;
- Osteoarthiritis,
- In increments of two-joint fluid
- Discogenic pain in the knee cap,
- Protection and rehabilitation after surgery,
- Sport activities aimed at protection,
- Heat and is used for compression.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

PATELLA AND LIGAMENT KNEE SUPPORT

Is made of neoprene material and the anatomically designed.
Patella is open around the pad is supported. Flexible ballet adjacent veins and thus increases the stability of the string and to alleviate the burden.

Indications;
- Artritis, bursitis, tendinitis,
- In strain and tensile,
- Meniscus problem,
- It is used for postoperative protection,
- Ligament instability,
- Used after sports injuries.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

KNEE SUPPORT WITH VELCRO PATELLA LIGAMENT

Is made of neoprene material and the anatomically designed.
Patella is open around the pad is supported. Flexible ballet adjacent veins and thus increases the stability of the string and to alleviate the burden.

Indications;
- Artritis, bursitis, tendinitis,
- In strain and tensile,
- Meniscus problem,
- It is used for postoperative protection,
- Ligament instability,
- Used after sports injuries.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

KNEE SUPPORT STEEL HINGED

Is made of neoprene material and the anatomically designed. Steel joints on both sides provide maximum support to allow the controlled movement. Hyperextension directory blocks.

Indications
- Ligament injuries and instability
- Meniscus lesions,
- First or second degree starin or tensile,
- It is used for protection and immobilization after surgery

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-215

CLOSED PATELLA KNEE SUPPORT

Neoprene material is produced, anatomically designed. Patella and surrounding material specially designed pad eva supported.

Indications
- During sports activities to protect,
- Patella and surrounding soft tissue to protect against injury,
- Are used to protect the knee bursitis.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-216

KNEE SUPPORT FOR POST - ARTHROSCOPY

Manufactured anatomically with neoprene material.
Since can be completely opened from the front side, it provides ease of use in post-operation and elderly patients.
Threesome Velcro fasteners increase stabilization.

Indications;
- Treatment of post-arthroscopy edema and pain.
- Any condition where hot or cold application is preferred.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-217

KNEE SUPPORT CROSSED LIGAMENTS

Is made of neoprene material and the anatomically designed. Patella and padded outdoor environ-ment is supported. Balenleri both sides are flexible. Applied the principle of three-point belts are crossed. Anterior cruciate ligament and patella provides stabilization.

Indications
- Cruciate ligament injuries and knee instability,
- Patellar stabilization,
- Meniscus lesions,
- It is used for protection and stabilization of postoperative.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-218

GB-221

PATELLAR TENDINITIS BAND

Is made of neoprene material and the anatomically designed. Patellar tendon pad is custom made of a silicone support. Will not interfere with joint movement. Apply compression effect that reduces pain.

Indications
- Os-good schlatter sickness,
- Discomfort in the patellar tendon is used.

Sizes **Adjusted Measure**

GB-222

KNEE SUPPORT FOR PATELLAR TENDON

Manufactured anatomically with neoprene material. There is a special pad supporting the patellar tendon. The compression applied reduces pain.

Indications
- Os-good schlatter sickness,
- Discomfort in the patellar tendon is used.

Sizes

S	M	L	XL	XXL
31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

FW-21

WOOL KNEE BRACE

Made of wool fabric. Temperature and provides compresion.

Sizes

S	M	L	XL	XXL
31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

FW-21-D

CAMEL WOOL KNEE SUPPORT

It retains heat to warm knee joint and improve blood circulation and metabolism and provides corfortable compression around knee joint for good stability.
It is made of pure wool.

Sizes

S	M	L	XL	XXL
31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

RABBIT HAIR WOOL KNEE SUPPORT

FW-21-T

It made of rabbit hair wool and provides heat and compression

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

THIGH SUPPORT

GB-611

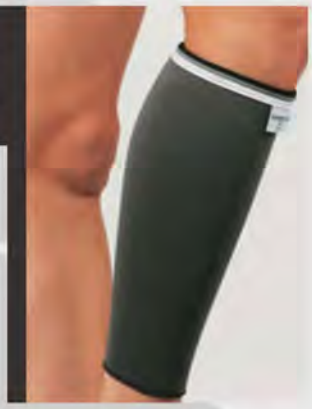
It is made of neoprene material and the anatomically designed. Supports the upper thighs. Provided with the effects of heat and compression increases circulation, reduces pain.

Indications;
- Muscle Stress
- In painful conditions of the upper calf
- To protect during and after the sport activities
- It is used to provide heat and compression.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

CALF SUPPORT

GB-621



It is made of neoprene material and the anatomically designed. The Velcro straps on the top front of ease of use. The lower thigh support. Provided with the effects of heat and compression increases circulation, reduces pain.

Indications;
- Muscle Stress
- In the case of the painful lower calf
- To protect during and after the sport activities,
- It is used to provide heat and compression.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

HIP BRACE

FW-019

Anatomically designed are made of thermo plastic. Stabilization of the hip joint, hip abduction orthosis provides. The skin is in contact with the inner surface of the towel made of cloth. In 15° increments to 120° of flexion are setting up.

Indications;
- Total hip replacement or revision of the post-stabilization purposes,
- Resection of the femoral head,
- Protection after operation,
- Used in cases of recurrent dislocation of the hip.

Adjusted Measure

Sizes	Adjusted Measure

FW-23

IMMOBILIZER

The sponge cloth towel inside surface is made of. Imobilization extantion provides directory. Anatomically designed and posterior, medial and lateral stabilization of providing support is made of steel. With Velcro been strengthened. Standards bodies and 45 cm, 55 cm, 65 cm long lengths are available.

Indications;
- Resting after the operation, protection and immobilization help,
- For rest after two injury-bonds,
- To postoperative meniscal injuries

Sizes	S	M	L
	45 cm	55 cm	65 cm

FW-10

ADJUSTABLE ANGLE BRACE

Anatomically designed aluminum bar according to the way the legs and skin as well as the surface cloth towel set ortezidir knee.

Indications;
- After surgical operattion immobilization with degree,
- Ligament injuries and the degree of control postoperative joint immobilization,
- Helping for moving.

Sizes **Adjusted Measure**

FW-10-B

ADJUSTABLE ANGLE BRACE

Anatomically designed aluminum bar according to the way the legs and skin as well as the surface cloth towel set ortezidir knee.

Indications;
- Graded immobilization after operation.
- Controlled after surgery and ligament injuries immobilization joint degree,
- It is useful for the brist.

Sizes **Adjusted Measure**

FW-10-A

GENU SUPPORT (ANGLE ADJUSTED)

This is a functional angle adjusted rigid brace allowing for flexion and extension limitation, designed according to the shape of the knee and manufactured with light aluminum. It provides the most convenient stabilization with the 4-point principle. It prevents tibial displacement, also preventing knee hyperextension.

Indications;
- Isolated rupture of ant cruciate ligament or combined ant and post cruciate ligament ruptures, Instability caused by collateral ligament rupture
- In strain and tensile,

GB-511

EIGHT BANDAGE

Cotton, is made of soft material that can get air and are easily used in shoes. Provide flexible support to the ankles, edema and relaxes.

Indications
- It is used to support for weakness bonds.
- It is used in cases of ankle pain.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-512

CROSS STRAP ANKLE SUPPORT

It is made of neoprene material and it is anatomically designed. Eight-way cross the yellow tape stabilization and compression of the elastic increases.

Indications
- 1. degree of twisting and in stretching up.
- After minor fractures
- After injury compression for edema
- Post-buckling is used for stabilization and protection.

Sizes	S	M	L	XL	XXL
	21 cm 23 cm	23 cm 25 cm	25 cm 27 cm	27 cm 29 cm	29 cm 31 cm

GB-513

ANKLE SUPPORT WITH MALLEOLUS PAD

Made of neoprene material. Internal and external malleolus was supported by anatomically designed pads. Support the ankle, the pain relief reduces edema.

Indications
- Mild ligament injuries and instability.
- Arthritis and osteoarthritis
- After surgery andinjuries is used for protective and support.

Sizes	S	M	L	XL	XXL
	21 cm 23 cm	23 cm 25 cm	25 cm 27 cm	27 cm 29 cm	29 cm 31 cm

GB-514

ANKLE STABILIZER WITH LIGAMENT SUPPORT

Made by neopren. Medial and lateral malleolus is anatomically designed around plastic plates,to increasing the stability material. Eight-way cross the yellow tape in the elastic provides extra support. Compression effect is applied with the ankle support, reduces edema and pain.

Indications
- Instability and rupture in ties
- Protective and anti-edema
- After surgery and injuries is used for protection or support.

Sizes	S	M	L	XL	XXL
	21 cm 23 cm	23 cm 25 cm	25 cm 27 cm	27 cm 29 cm	29 cm 31 cm

DORSI - FLEXION BANDAGE

Made of neoprene material. This is an ankle band used for fallen arch deformity, which keeps the ankle within the desired stretch in the dorsal flexion.

Sizes | **Adjusted Measure**

FW-017

ANKLE PAD

Made of plastic material anatomically designed on the outer surface, this is an ankle orthosis whose interior enables cold treatment with gel pads. Provides the ankle with medial and lateral stabilization.

Indications
- Chronic ankle instability,
- Pre- and post-operation for ligament injury,
- For compression and support after sprain,
- Stabilization after taking out the plaster of a fracture.

Sizes | **Standart**

FW-19-K

AIRCAST

The external surface is designed in accordance with anatomical structure, Thanks to the inner surface of the plastics material airbag ankle provides a full anatomic fit for maximum stabilization.

Indications
- Chronic ankle instability,
- Pre- and post-operation for ligament injury,
- For compression and support after sprain,
- Stabilization after taking out the plaster of a fracture.

Sizes | **Standart**

FW-19-K

ANKLE ORTHOSIS

FW-014

REFLEX AFO

It is an orthesis ankle is made of thermoplastic material. Wrist position at 90 degrees. Velcro strap around the ankle at last provides comfort in use.
Suitable for use in footwear. There are right and left.

Indications;
- Hemiplegia, nerve injuries such as herniated disc in the case of developing lower leg deformity,
- When you are in any case eclipse of the ankle is at 90 degrees.

Sizes	S	M	L
	37 cm 38 cm	39 cm 40 cm	41 cm 42 cm

Left - Right

CNCT-12

FOOT GUARD

It is made of thermoplastic material, in a terrycloth-covered T orthosis ankle band. To stabilize the ankle at 90 degrees, the T tape will prevent the rotation. In hospitalized patients is preferred.

Sizes	S	M	L
	35 cm 37 cm	38 cm 40 cm	40 cm 44 cm

FW-612

R.O.M. WALKER

Eva base portion, the exterior is made of hard plastic material, with pads covered in a towel to help early immobilization orthosis. Plantar flexion of the ankle height, the heel pad by means of the third storey is set.

Sizes	S	M	L
	34 cm 37 cm	38 cm 41 cm	42 cm 45 cm

FW-622

ACHILL BOAT

It is covered with cotton cloth interior, adjustable ankle dorsi and plantar flexion assist orthosis early immobilization.

Indications;
- Tendon, ligament and soft tissue injuries for stabilization after surgery,
- Chronic ligament instability
- Unstable distal tibia and fibula fractures or non use of internal fixation of fractures of the distal tibia and fibula,
- Of Achilles tendon rupture,
- It is a stable foot and ankle fractures.

Sizes	S	M	L
	34 cm 37 cm	38 cm 41 cm	42 cm 45 cm

PAVLIC BANDAGE

FW-021

Is made of polyamide, booties, shoulders, and chest circumference softened with terry cloth. Hip joint flexion and abduction position desired tension.

Sizes	XS	S	M	L
	25 cm 33 cm	33 cm 41 cm	41 cm 51 cm	51 cm 61 cm

FREJKA PILLOW

FW-010

12 mm. plastozottan of production. Of the hip joint flexion and amount of abduction position.

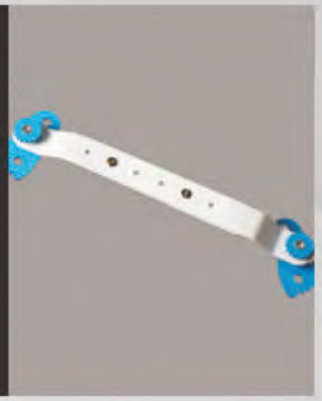
	27 cm 32 cm	32 cm 37 cm	37 cm 42 cm	42 cm 47 cm	47 cm 52 cm

DENIS BROWNE SPLINT

FW-061



Hip abduction orthosis is made of aluminum. Orthotics are custom made mounted on a pair of boots is connected between both feet. Length setting is dominated by the channel system can be made. Hip dislocation, pes equinovarus deformatisinde used.

Sizes	Short: 29-41 cm / Long: 42-68 cm

DENIS BROWNE SPLINT (MOVING)

FW-062

Hip abduction orthosis is made of aluminum. Children misfire or to be independent of each other movements, such as crawling legs can be done. The risk of foot and heel resulting from the boat s regional prevents redness. Children may be more active and lively.

Sizes	Short: 29-41 cm / Long: 42-68 cm

KNITTED ELASTIC ELBOW

Knitted fabric made of breathable elastic elbow.

Indications;
- Osteoarthirits,
- In increments of two-joint fluid,
- Protection and rehabilitation after surgery,
- Sport activities aimed at protection,
- Heat and is used for compression

KNITTED EPICONDYLITIS ELBOW

GB-821

Sizes

S	M	L	XL	XXL

LUMBOSACRAL CORSET KNITTING

It is made of neoprene material and the anatomically designed.

Indications;
- Lumbago, disc lesions,
- Spondiliolizis, Spondiliolistezis,
- Post-operative immobilization is used for protection

Sizes

S	M	L	XL	XXL
75 cm 85 cm	85 cm 95 cm	95 cm 105 cm	105 cm 115 cm	115 cm 125 cm

PAD KNITTING CORSET

Breathable, stretchy knit fabric produced. At the rear lubmer the mesh pad is specially designed brace effective massage. Massage with the effect of blood flow increases. Stabilize lumbo sacral junction with the junction Sakrolilak is. Implementation of the compression by reducing the painful muscle tone in the region provide relief

Indications;
low back pain due to disorders of the intervertebral joints are used.
Sakrolilak jointh irritation,
Spondülos, degenerative joint changes

Sizes

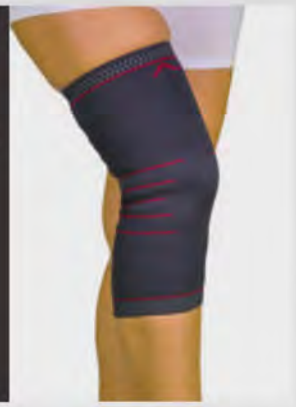
WOVEN ELASTIC KNEE SUPPORT

GB-700



Manufactured with flexible and sweat-preventing woven fabric.

Indications;
- Arthritis,
- Post-cperation (for protection),
- Protection during sports activities.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

KNIT-BACKED PATELLA AND LIGAMENT KNEE BRACE

GB-811

Breathable, flexible and is made of knitted fabric sweat, Anatomically designed, The patella was supported around the silicone. On both sides are flexible straps. Add support and reduces pain by easing the load on the array.

Indications;
- Menical lesions,
- The increase in intra-articular fluid,
- From the kneecap pain,
- Ligament instability,
- Used for protection after surgery.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

WOVEN PATELLA KNEE SUPPORT

GB-812

Manufactured with flexible and weat-preventing woven fabric, anatomically convenient for the shape of the knee.
The perimeter of the patella is supported with a silicone pad.

Indications;
- Osteoarthritis,
- Increase of intra aticular liquid,
- Pain caused by patella,
- Post-operation and-trauma (for protection and rehabilitation.)

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

WOVEN LIGAMENT KNEE SUPPORT

GB-813

Is made of neoprene material and the anatomically designed. Flexible ballet adjacent veins and thus increases the stability of the string and to alleviate the burden.

Indications;
- Bursitis,
- In strain and tensile,
- Meniscus problem,
- It is used for postoperative protection.
- Ligament instability,
- Used after sports injuries.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-814

WOVEN HINGED KNEE SUPPORT

Breathable, flexible, and is made of knitted fabric sweat, anatomically designed.
Joints on both sides is aluminum. Un the upper and lower calf with velcro straps provides a more comfortable stabilization.

Indications;
- Ligament injuries,
- Meniscal tears,
- Artist, Burist and tendonitis,
- Used for protection after surgery.

Sizes	S	M	L	XL	XXL
	31 cm 34 cm	34 cm 37 cm	37 cm 40 cm	40 cm 44 cm	44 cm 48 cm

GB-820

WOVEN ANKLE SUPPORT

Designed anatomically, manufactured with flexible and sweat-preventing woven fabric. The compression effect reduces edema and pain.

Indications;
- St degree strain and sprain.
- Edema after injury,
- For protection after sprains,
- Post-operation (for protection)

Sizes	S	M	L	XL	XXL
	19 cm 21 cm	21 cm 23 cm	23 cm 25 cm	25 cm 27 cm	27 cm 29 cm

GB-831

MALLEO KNITTED ANKLE SUPPORT

Breahable, elastic knitted fabric made of sweat. There are anatomically designed around malleolar pads. Ankle support, reduces pain and edema due to compresion applied.

Indications;
- Mild ligament inkuries,
- Instability,
- Arthritis and osteoarthritis
- Post-operative ranger purposei

Sizes	S	M	L	XL	XXL
	19 cm 21 cm	21 cm 23 cm	23 cm 25 cm	25 cm 27 cm	27 cm 29 cm
